

José Eduardo Rodrigues Lopes

SOFTWARE ENGINEER

Professional Resume

Software developer specialized in building exceptional websites and mobile applications, with more than 3 years involved in the entire software development lifecycle providing IT solutions for public and private organizations, using the best tools and technologies in the current market. I'm passionate about learning new technologies like ChakraUI, TailwindCSS and techniques like JAMStack and also about finding solutions to work challenges and being part of a collaborative environment.

Technologies I've been working with recently:

- JavaScript
- TypeScript
- React
- React Native
- Next.js
- Expo
- TailwindCSS
- ChakraUI

FRONT-END DEVELOPER

Einstein / Nov 2021 - Present
